Location **Cote d'Azur, France**
Project **Private House - Antique flavor with a contemporary touch**

*This interior design project for a large flat in a historical building located on the **French Riviera** has a unique style and a strong **"glamour rock"** personality.*

*It's a surprising combination of styles where antique rooms are outfitted with **contemporary** furniture.*

*Bredaquaranta handled the **entire design phase** of every room in the flat: the kitchen with its island, the living room, the bathrooms, the bedroom and wardrobes.*

Project Villa - Restoration and furnishing project

*A complete project restored the beauty of this majestic villa overlooking **Lake Como** in the prestigious **Bellagio**.*

*In the outer **garden**, a marvellous view of the lake can be enjoyed from a fully furnished veranda and from the comfortable lounge area located near the swimming pool.*

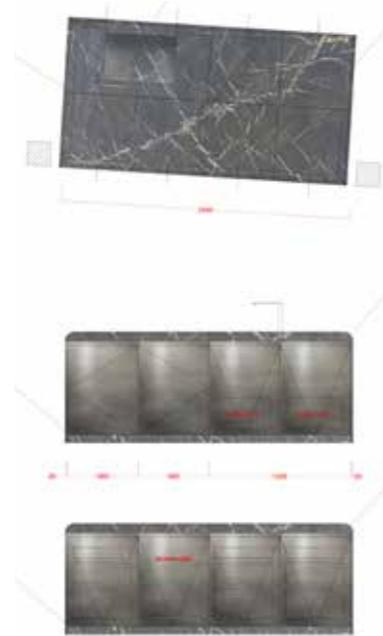

*The particularly bright and comfortable living room stands out for its simplicity and elegance, featuring a sofa and armchair ensemble made by **Meridiani**.*

The project featured the installation of a **bespoke kitchen** with doors in pewter metal and countertop in grey stone.

Project **Private House**

*The idea was to craft a show **flat-style home** that was both stunning and homely. Luxury and grandeur is front and centre in the living and dining room; it's where the homeowners host family and friends.*

*Naturally the private realm takes **clean lines** and a pared-down **simplicity**.*

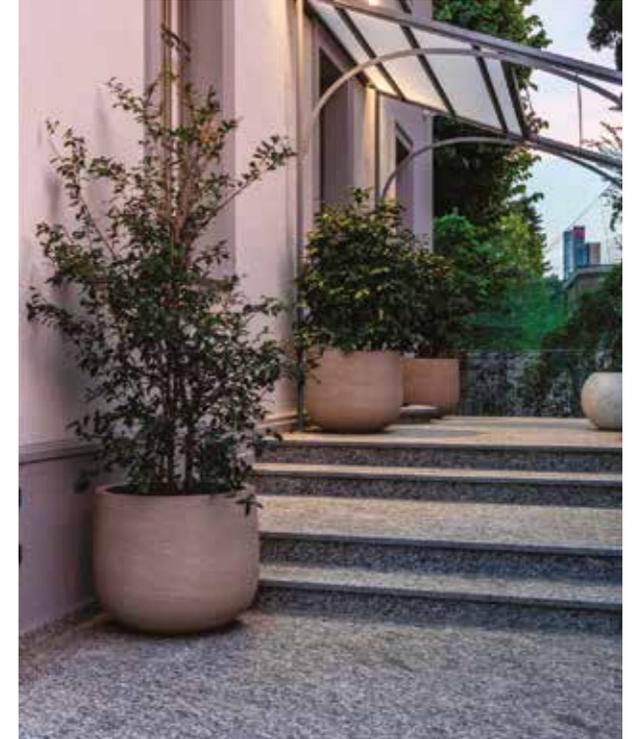

Tranquil in nature, the earthy tone, clutter-free interiors, and subtle grey carpeting, sets the tone for a soothing rest, and makes the space particularly alluring.

*A swivelling floor lamp from **Flos**, for example, pays homage to a quintessential street light design. The simplicity and chic elegance of **Baxter's Budapest** leather sofa offsets the darker palette and grand marble flooring. Other pieces add an aura of sophistication, such as the iconic **Tulip** recliner armchair in the study from **Natuzzi Italia**.*

*This two-storey home located in the **Maggiolina district of Milan** has an attic area and a basement.*
